7:00-8:30 p.m. - Gr. 4-7 Open Gym  
8:30-10:00 p.m. - Gr. 8-12 Open Gym

## A Message From The Principal

Greetings everyone,  
I hope each of you is enjoying the volleyball games. Yesterday was our first home game with King Cove, and considering our team consists largely of students who have never played competitively before, they had an outstanding showing. We still have games scheduled for Friday at 6:00 pm, and Saturday at 9:00 am. We appreciated the great turnout last night, and the sportsmanship demonstrated by all was outstanding. As a reminder, we want to keep our gym floor looking fantastic, so please remember that no food or drink is allowed in the gymnasium. Also, please walk the outer perimeter of the floor as you enter and exit the gymnasium. Further, how great did our cheer team look and do? They were amazing, as was the performance of our mascot. Thanks to all who were involved with making this event a success. Go Volleyball Team! Also, thanks to everyone of you who are having a positive influence on our students.

Mr. Haslem

**Monday is Picture Day!** Picture your student photographed with Lifetouch's "Color Sensations" Background. Be sure to select your color and package choice. Bring your order envelope with payment to the photographer. Some suggestions for better portraits...Wear bright colorful clothing and bring your smile too!

Lifetouch will be providing family/group pictures Sunday evening at 6:00 p.m. on the stage at the school. Flyers can be found at the AC store.

Please support the Eagles by paying the admission fee at the gate.

\$2.00 for Adults

\$1.00 for Students

Free Admission for Elders and Infants

## 4th/5th Graders Write About Things They Love !!!

The 4th/5th grade students are proud to tell you about the Aleutians in this descriptive writing. Enjoy reading our writings and come for a visit anytime!

Mrs. Lee

### Sandy Beach

by Joseph

Sandy Beach is a place I love. I love that beach because it brings back funny and cool memories. I liked climbing up the hill and then when I reach the top I always jump or slide down. It is the best beach I've been to.

The first time I went there I saw a minnow laying around, then a crab came and caught it in it's pinchers. The crab was 2 inches long. After the crab took it the orange little crab ran away from where it came from. I had seen a lot of crabs walking around, some minnows lying around, and on shore.

I saw a silver in the little river in the middle of the cliffs. It was big, round, and silver. Salmon are all kinds of colors. A silver is silver, but a sockeye's head is green and the body is pink. Humpy salmon have humps on their back. It was 24 inches long. The minnow were the same size as my pinky finger.

While we were on the boat heading to Sandy Beach I brought a fishing pole so I could fish off the side of the boat. I got a snag on the first cast. I caught a silver on my second cast. It was fighting with me, and it kept on flopping around. Finally, I reeled it in and cut it open for bait. Next thing you know waves started crashing against the side of the boat. When all of us got on the skiff it was bumping around in the water. Next thing you know a gigantic wave took me in the ocean! It was fun to be taken away by a gigantic wave.

I love Sandy Beach and I will never forget the time I jumped off the cliffs and saw a minnow get eaten by a crab. It's pretty cool.

### Finding Glass on Unga

by Brittany

I have special memories of finding glass on Unga. It is relaxing to sit and sweep away the rocks and find a whole bunch of glass. The glass comes from our homes. We smash the glass against the rocks on the beach for a couple of years. When we come back we find the glass in the sand. The glass is polished from banging against the rocks on the beach.

Beach glass comes in many different shapes, sizes, and colors. The colors are light blue, dark blue, brown, light green, dark green, and ruby red. My favorite piece is a ruby red piece of glass I found shaped like a circle.

To find beach glass you have to sweep away the piled up rocks along the beach bank. Sometimes you do not find beach glass when you sweep away the rocks, but when you find the glass you have to pick it up and put it in the bucket.

Some beach glass is so sharp and some is so smooth. When you find sharp glass it can cut you and the cuts bleed a lot. Then when you are done beach combing you get large blisters on your hands from scraping your fingers along the rocks.

I have a lot of great memories about finding beach glass on Unga. All the neat and cool beach glass I find goes in my beach glass collection. I put it in a clear glass jar so everyone can see all the beautiful colors. When I look at it, it reminds me of picking up all the special stones.
